FEASIBILITY STUDY - Public meeting October 1, 2025

The Florida Department of Transportation (FDOT) District One, in partnership with the City of LaBelle, Hendry County, and the Heartland Regional Transportation Planning Organization (TPO), is conducting a feasibility study for a proposed SR 29 LaBelle Bypass. This study is evaluating the viability of alternative corridors within a 10-mile radius of LaBelle to improve traffic flow while avoiding and minimizing impacts on the social, economic, cultural, natural, and physical environment.

The study evaluated various engineering and environmental factors to determine potential bypass routes for SR 29. Below are the corridors that have been advanced to alternatives screening, indicating they have passed initial evaluations and are undergoing more detailed assessment:
